

Sustainability Policy, Objectives & Targets

“BIS WAY ENERGY SDN BHD (BWSB) strive to promote and continuously improve our business for sustainability in environment. We committed to play important role in the enhancing energy efficiency market by protecting the environment, safety and health. As a responsible organisation, we will help for long-term sustainability program in the Facility Management (FM) contracts which will be our target sector for the future generation”

We are constantly endeavour the following action in our operations as follows;

- To produce an annual Energy Efficiency (EE) and Environmental Plan setting out our Client’s Objectives, Targets and planned Actions
- To comply fully with all relevant legislation
- To monitor and minimise the waste and reduce water consumption where possible
- To reduce, Reuse, Recycle the resources consumed by our business wherever practical
- To invite our customers, suppliers and contractors to participate in our efforts to protect the environment
- To provide all employees with the training and resources required to meet our objectives
- To openly communicate our policies and practices to interested parties
- To monitor and record our environmental impacts on a regular basis and compare our performance with our policies, objectives and targets”

Major Targets & Objectives

Energy

To promote installation of Real Time Energy Monitoring System (RTEMS) for better enforcement, trend analysis, saving measure recommendations and as energy saving meter to attract EPC contractor’s involvement.

To reduce our client energy consumption by 5% from the agreed baseline year and reduce Carbon Emissions

To promote EPC (Energy Performance Contracting) with Simple Payback Period (SPP) below 3 years

Water

To reduce consumption of Mains Water by ensuring no pipe leakage and vandalism

Waste

To reduce the waste sending to Landfill by Reuse, Reduce & Recycle activity

Green Purchasing

To priority suppliers/subcon that practice environment friendly and energy saving product
To increase usage of recycled paper products to 30% of all paper/cardboard purchased

Community Social Responsibility

To conduct yearly competition with our client for the environment and energy efficiency
To communicate monthly with our client’s for performance & achievements through our website
